HAND PROTECTION FOR MANUFACTURING & ENGINEERING

Traffi®

THE HAND PROTECTION SPECIALISTS

IN SAFE HANDS WITH TRAFFI

At Traffi we're here to help. We believe everyone in manufacturing and engineering deserves the best in hand protection.

We're passionate about working with you, to help resolve your hand safety pain points.

- Do you find the gloves your staff are using lack dexterity?
- Are your employees removing their gloves to use touch screen devices?
- Do your gloves lack good grip in oily conditions?
- Are you looking for more sustainable solutions for your hand protection?

These are just some of the many hand safety concerns we've resolved in the manufacturing and engineering industry, by providing our specialist advice and glove recommendations.

"TG1240 - Very comfortable to wear, right glove for correct job, very good hand protection"

"TG6240- Great gloves, very dexterous. Easier to use a pen and paper and good to be able to use iPad or phone with them on. These gloves get less cold than previously used gloves. Far more comfortable and better fitting than previously used gloves. In all these gloves are far superior to what is currently used."

"TG5545 - The gloves are brilliant, very durable and comfortable"

WHY CHOOSE TRAFFI

Sustainability & Innovation

We listen to our customers pain points and invest in research and development to produce innovative glove designs and materials, that offer unrivalled protection, comfort and dexterity.

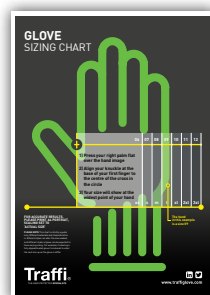

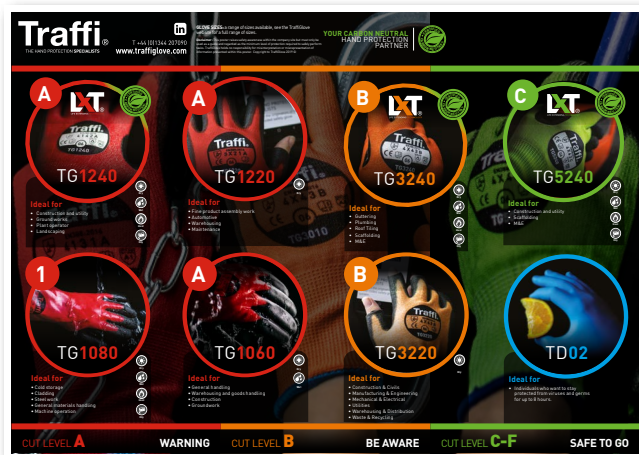

We're leading the way in sustainability within the safety glove industry and as part of our journey, we have:

- Become certified carbon neutral as a company
- Introduced the world's first carbon neutral safety glove range (LXT)
- Reduced our plastic packaging
- Introduced a sustainable solution to disposable gloves (TD02)

By working with us, we can help you to achieve some of your sustainability goals.

Support

We're here to help promote buy-in to your hand protection programme. We ensure that we fully understand your needs. We offer glove audits, trials, product training, toolbox talks, free samples, glove posters, and other bespoke collateral, to help make glove selection and compliance easier. We also provide ongoing support, throughout your whole journey with us.

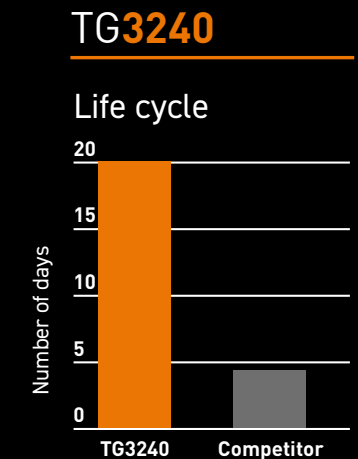

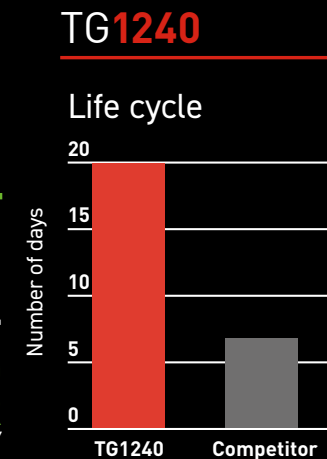

COST IN USE & LONGEVITY

Reducing waste to landfill

Our range has proven time & time again to last longer than competitors gloves. This results in less gloves going to landfill.

TG1290 X-DURA ULTRA PU

Cut Level A Safety Glove

Key features

- Super lightweight
- Highly tactile, touchscreen compatible
- This glove has anti-static properties
- High performance liner, dirt & abrasion resistant

Sizes 6-11

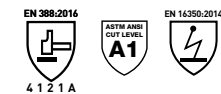

Liner Polyester/Carbon fibre/Polyamide/Elastane

Gauge 18gg

Coating X-Dura Polyurethane

Conditions

Standard

Ideal for
• Manufacturing fitters
• Finishing • Labourers • Stores
